Fraud Investigation

Senior Security Operations professional with extensive experience investigating fraud, analyzing account takeovers (ATO), detecting cybercrime, and protecting accounts across FinTech, payments, payroll, and banking products.

Proven success identifying phishing campaigns, tracing attacker infrastructure, and resolving fraud cases using evidence-based investigative techniques. Adept at leveraging SQL, threat intelligence, OSINT, authentication records, and device-risk signals to identify fraud patterns and validate threats. Educational background in Cybersecurity analysis through a BA in Cybersecurity in progress, complemented by CFE, CEH, and CCCI certifications. Strong communication and analytical skills, with the ability to translate cyber threats into actionable intelligence, collaborate across teams, and improve investigative accuracy.

Areas of Expertise

- Fraud Investigations & Case Analysis
- Account Takeover (ATO) Investigation
- Cybercrime Investigation
- Threat Intelligence & OSINT
- Phishing Analysis
- Identity Fraud Detection
- Suspicious Activity Analysis
- Digital Forensics
- Fraud Risk Assessment & Mitigation
- Account Protection & Security
- Adversary TTP Analysis
- Investigative Documentation & Reporting

Professional Experience

Intuit Inc., Tucson, Arizona **2011 – Present**

Senior Security & Risk Operations Analyst | 2022 – Present

Serve as the operational point of contact for two frontline investigation teams comprising 27 analysts. Investigate ATO cases using SQL, authentication records, device-risk signals, and Salesforce histories to prevent false-positive account lockouts. Trace account deactivations to specific systems and policies, distinguishing genuine security incidents from routine login issues. Identify phishing infrastructure through email-header analysis and coordinate cross-company takedown efforts with Square/Block. Develop an AI-powered ATO Quality Audit Program with a 100-point scoring framework, automated reporting, and assessments for 18 investigators and a partner team.

- Built Customer Account Protection operations from the ground up, developing tiered workflows, Pega processes, SOPs, and training for 22 team members; maintained 99.3% service levels amid 108% call volume growth.
- Investigated and resolved authentication failures causing recurring 503 errors and duplicate takedown referrals, partnering with Engineering to validate fixes and update procedures.
- Validated social media enforcement automation rules projected to reduce the QuickBooks backlog by 40%; prevented false positives targeting legitimate ProAdvisor content and escalated suspected identity fraud indicators.
- Analyzed 550,000+ records to identify emerging threat patterns, coordinated QuickBooks affiliate impersonation, geographic shifts in adversary activity, and piracy content reaching 4× baseline engagement.
- Authored executive threat intelligence briefing on an advanced Evilginx phishing campaign affecting 957+ customers, with 359+ confirmed account-takeover victims and $844K+ in monthly payment exposure.
- Coordinated cross-functional security incident notifications across Legal, Corporate Communications, and product teams; managed related malware campaign communications reaching 530,000+ recipients.
- Developed an account-takeover routing strategy after identifying that only 20% of related calls reached the correct fraud or risk queue, addressing estimated $2M monthly financial exposure.
- Acted as a required approver for routing implementation credited with eliminating ~780 misrouted calls monthly, saving handle time by 1M+ seconds monthly, and lowering average customer contacts from three to one.

Payments Supportability Specialist | 2019–2022
CX Lab Specialist, Payments | 2017–2019
Payroll Support Specialist | 2014–2017
Merchant Services Specialist | 2011–2014

Progressed through five roles across fraud detection, risk operations, payments, and technical support. Contributed to Stripe Payments integration and Salesforce CRM migration initiatives. Supported development of fraud mitigation frameworks informing current Trust & Safety operations and service delivery.

- Automated Notice of Change processes, saving $750K annually and eliminating 200+ manual work hours; supported outage recovery for 127,000+ merchants.
- Trained four waves of payments specialists as Tucson's sole Payments Facilitator; earned the Q2 Excellence Award.

Education

Bachelor of Arts (BA) in Cybersecurity
Southern New Hampshire University | In Progress
Dean's List and President's List, 2026

Certifications

- Certified Fraud Examiner (CFE) | ACFE | Expires Jun 2027
- Certified Ethical Hacker (CEH) | EC-Council | 90th-percentile pass rate | Expires May 2027
- Certified Cyber Crimes Investigator (CCCI) | IAFCI | Expires Sep 2028

Technical Skills & Tools

- **Fraud & Cybercrime Investigations:** ATO investigations, synthetic identity fraud, phishing analysis, email header analysis, adversary TTPs, OSINT, threat intelligence
- **Data & Querying:** SQL, Python, Databricks, Splunk, Qlik, fraud dashboards
- **Security & Risk Platforms:** Doppel, ZeroFox, Pega, Salesforce, ServiceNow
- **Automation & AI:** Claude, Custom GPTs, Cursor, Claude Code, MCP integrations, workflow automation
- **Operations & Collaboration:** Jira, Confluence, Smartsheet, AWS Connect, IVR/IVA routing, investigator enablement
